

Aim:

To assign user story to specific sprint for the Music Playlist Batch Creator Project.

Steps:

Sprint 1:

The screenshot shows the Azure DevOps interface for the 'Music Playlist Batch creator' project. The left sidebar contains navigation links: Overview, Boards, Work items, Boards, Backlogs, Sprints (selected), Queries, Delivery Plans, Analytics views, Repos, Pipelines, Test Plans, and Artifacts. The main area displays the 'Sprints' view for 'Sprint 1'. The 'Taskboard' tab is active, showing a Kanban board with columns: To Do, Doing, and Done. A single work item, '22 As a user, I want to create playlists based on categories so that I can listen easily.', is in the 'To Do' column. It is assigned to 'Unassigned' and has a green plus icon next to it. The top right shows a search bar, a 'New Work Item' button, and 'Column Options'. The bottom right indicates 'No iteration dates' and 'Set dates'.

Sprint 2:

The screenshot shows the Azure DevOps interface for the 'Music Playlist Batch creator' project, now on 'Sprint 2'. The left sidebar is the same. The main area displays the 'Sprints' view for 'Sprint 2'. The 'Taskboard' tab is active, showing a Kanban board with columns: To Do, Doing, and Done. Two work items are visible: '22 As a user, I want to create playlists based on categories so that I can listen easily.' and '25 Add filtering options based on mood, genre and artist'. Both are in the 'To Do' column and assigned to 'Unassigned'. The top right shows a search bar, a 'New Work Item' button, and 'Column Options'. The bottom right indicates the sprint dates '20 April - 28 April' and '7 work days remaining'.

Sprint 3:

The screenshot displays the Azure DevOps interface for a project named "Music Playlist Batch creator". The view is set to "Sprints" and specifically "Sprint 3". The team selected is "Music Playlist Batch creator Team". The interface shows a Kanban board with three columns: "To Do", "Doing", and "Done". There are two work items in the "To Do" column:

- Item 22: "As a user, I want to create playlists based on categories so that I can listen easily." (Unassigned, 5 points)
- Item 24: "Implement backend logic for playlist generation" (Unassigned, 5 points)

The left sidebar contains navigation links for Overview, Boards, Work items, Backlogs, Sprints, Queries, Delivery Plans, Analytics views, Repos, Pipelines, Test Plans, and Artifacts. The top bar includes a search bar and user profile information (KP).

Result:

The Sprints are created for the Music Playlist Batch Creator Project.
